

SMART WORDS NZ

PRODUCT LIST

Smart Words is a word study program that teaches students “how” to spell words. It uses a **sequential and developmental** list of words (with a common pattern) as a tool to study words, develops a spelling consciousness, and an awareness of how to spell correctly.

Smart Words and the Literacy Progressions

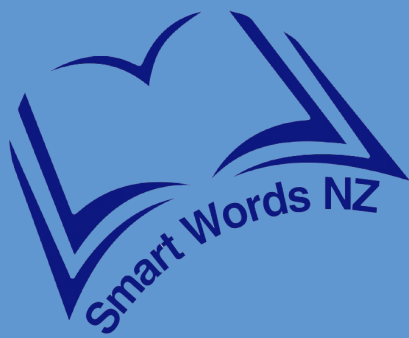

The Smart Words Programme covers most of the “knowledge and skills” listed in the reading and writing progressions (this is half the progressions for each year group).
